The appraiser may always use more than three comparable sales, including contract sales (pending sales) and/or current listings, to justify and support their opinion of market value, as long as at least three are actual closed (settled) sales.
 - Suppose a comparable sale with an accessory unit is not available.  - When a single deposit consists of both verified and unverified portions, the Lender may use just the unverified portion when determining whether the deposit exceeds the 50% requirement.
 - When the source of funds can clearly be identified from the deposit information on the account statement (e.g., direct payroll deposits) or other documented income or asset source in the Mortgage file (e.g., tax refund amounts appearing on the tax returns in the file), the Lender is not required to obtain additional documentation.
