## Extenuating Circumstances

- Extenuating circumstances are nonrecurring events that are beyond the borrower's control that result in a sudden, significant, and prolonged reduction in income or a catastrophic increase in financial obligations.
- If a borrower claims that derogatory information is the result of extenuating circumstances, the lender must substantiate the borrower's claim. Examples of documentation that can be used to support extenuating circumstances include documents that confirm the event (such as a copy of a divorce decree, medical reports or bills, notice of job layoff, job severance papers, etc.) and documents that illustrate factors that contributed to the borrower's inability to resolve the problems that resulted from the event (such as a copy of insurance papers or claim settlements, property listing agreements, lease agreements, tax returns (covering the periods prior to, during, and after a loss of employment), etc.).
- The lender must obtain a letter from the borrower explaining the relevance of the documentation. The letter must support the claims of extenuating circumstances, confirm the nature of the event that led to the bankruptcy or foreclosure-related action, and illustrate the borrower had no reasonable options other than to default on their financial obligations.

- For borrowers in the military, a military Leave and Earnings Statement dating within 30 days prior to the note date is acceptable in lieu of verbal verification of employment.
- Mortgage Credit Certifications (MCCs) enable an eligible first-time home buyer to obtain a mortgage secured to his or her principal residence and to claim a federal tax credit for a specified percentage (usually 20% or 25%) of the mortgage interest payments.
  - When calculating the borrower's debt-to-income ratio, treat the maximum possible MCC income as an addition to the borrower's income, rather than as a reduction to the amount of the borrower's mortgage payment. Use the following calculation when determining the available income:
  - **[(Mortgage Amount)x(Note Rate)x(MCC %)/12 = Amount added to the borrower's monthly income.**
  - For example, if a borrower obtains a \$100,000 mortgage that has a note rate of 7.5% and he or she is eligible for 20% credit under the MCC program, the amount that should be added to his or her monthly income would be \$125 ( $\$100,00 \times 7.5\% \times 20\% = \$1500 / 12 = \$125$ ).
- The lender must obtain a copy of the MCC and the lender's documented calculation of the adjustment to the borrower's income and include them in the mortgage loan file.
  - For refinance transactions, the lender may allow the MCC to remain in place as long as it obtains confirmation prior to loan closing from the MCC provider that the MCC remains in effect for the new mortgage loan. Copies of the MCC documents, including the reissue certification, must be maintained in the new mortgage loan file.
- Housing Choice Voucher Homeownership Program income (commonly known as Section 8 for homeowners) paid via Housing Assistance Payments (HAPs) are an acceptable source of income. However due to operational constraints transactions involving HAPS paid directly to the Servicer are ineligible for purchase by Windsor Mortgage Solutions. Transactions with HAPs paid directly to the borrower continue to remain eligible for purchase.
