 - The verbal VOE must be obtained within 10 business days prior to the note date for employment, and within 120 calendar days prior to the note date for self-employment.
- Mortgage Credit Certificates (MCCs) issued by state and local governments may qualify a borrower for a federal tax credit. The Federal tax credit is based on a certain percentage of the borrower's mortgage interest payment. Lenders must provide a copy of the MCC to VA with the loan package, which indicates:
 - The percentage to be used to calculate the tax credit
 - The amount of the certified indebtedness. The certified indebtedness can be comprised of a loan incurred by the veteran to acquire a principal residence or a qualified home improvement
- If the percentage on the MCC exceeds 20 percent, there is an annual limit on the tax credit, equal to the lesser of \$2,000 or the borrower's maximum liability. Calculate the tax credit by applying the specified percentage to the interest paid on the certified indebtedness. Then, apply the annual limit.

Employment/Income

- Example: The MCC shows a 30-percent rate and \$100,000 certified indebtedness. The borrower will pay approximately \$8,000 in annual mortgage interest. Borrower's estimated total Federal income tax liability is \$9,000. Calculate the tax credit as follows:
 - 30 percent of \$8,000 = \$2,400
 - Apply the annual \$2,000 limit
 - The tax credit will be \$2,000
 - Note: If the mortgage on which the borrower pays interest is greater than the amount of certified indebtedness, limit the interest used in the tax credit calculation to that portion attributable to the certified indebtedness.
- Housing Choice voucher Homeownership Program income (commonly known as Section 8 for homeowners), paid via Housing Assistance Payments (HAPs), is an acceptable source of income. However, due to operational constraints, transactions involving HAPs paid directly to the Servicer are ineligible for purchase by Windsor. Transactions with HAPs paid directly to the borrower continue to remain eligible for purchase.
- Future Income

If the borrower is NOT currently employed, the borrower to have sufficient reserves to cover all liabilities plus PITIA for the number of months between closing and the start of employment.

Entitlement

- Entitlement is the amount of VA Guaranty available to a Veteran for use on a loan. The amount of entitlement will be displayed near the center of the COE.
- VA loans must conform to GNMA secondary market guidelines, which include the minimum 25% coverage requirement. Coverage is a combination of VA-provided entitlement and a cash down payment/equity.
- The COE will never reflect any additional specific entitlement amount over \$36,000 for loans greater than \$144,000, but will reflect "Available*"
- For loans closed after January 1, 2020, Freddie Mac CLLs is no longer a factor for Veterans with full entitlement. For Veterans with full entitlement, the maximum guaranty amount for a loan exceeding \$144,000 is 25 percent of the loan amount, regardless of the Freddie Mac CLL.
- For Veterans who have previously used entitlement, and such entitlement has not been restored, the maximum amount of guaranty is the lesser of 25% of the loan amount OR the maximum amount of guaranty entitlement available. The maximum amount of guaranty entitlement is 25 percent of the Freddie CLLs.

Funding Fees

- The following Veterans are exempt from paying the funding fee:
